

“Dedicated to the American Farmer and Elected Committee System”

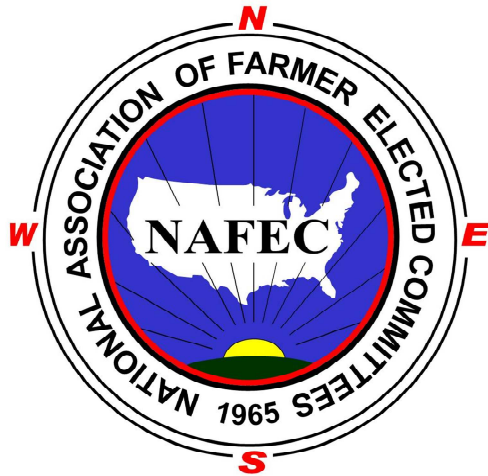

Our Mission

Formed in 1965, and with more than 8,000 county committee members, the National Association of Farmer Elected Committee Members works to promote and improve the farmer elected committee system for the continued local administration of all farm programs through the FSA.

NAFEC is the nation's leading resource for the county-committee based system. Just as equally important, NAFEC strives to preserve the continued way of life for America's farmers, ranchers, and rural communities.

You Make the Difference!

Your support and continued membership is the key to making any association successful and NAFEC is no exception. The coordinated efforts and our collective voice, will give strength and much more influence in Congress for the kind of farm programs America's farmers, ranchers and rural communities need in order to thrive in today's world.
